

# ZW version log

Version	Date	Description
4.023.053	17-Mar-2010	The Dutch ORC No-Spi correction (-2.5%) has been made more transparent for users, who are unfamiliar with this correction.
4.023.052	17-Mar-2010	Italian translation corrected for Finish listing.
4.023.051	17-Mar-2010	Numeric subfleet criteria ignore the decimal digits. Fixed.
4.023.050	16-Mar-2010	Output for ORC No Spi correction has been improved
4.023.049	16-Mar-2010	Parameter file ZW.INI moved from Windows directory to ZW/DATA directory.
4.023.048	12-Mar-2010	Tab sequence modified in Window Competitors/Handicaps
4.023.047	12-Feb-2010	Bug while printing miscellaneous special listings via Output window is fixed. Bug was introduced with 4.023.042.
4.023.046	01-Feb-2010	Bug while printing Finishlistings from Finish window is fixed. Bug was introduced with 4.023.042.
4.023.045	30-Jan-2010	In listing "All competitors" column "Paid" is skipped, if no paid info has been entered.
4.023.044	16-Jan-2010	Autostart option on output window has been adapted to current practice.
4.023.043	08-Jan-2010	Tiebreking in subfleets was not always correct. FIXED
4.023.042	07-Jan-2010	Multiple listings can now (again) be combined into one output file
4.023.041	29-Dec-2009	During all finish sessions, the options "Weight factor & First as" can be used through menu item "Options"
4.023.040	29-Dec-2009	An option has been added to solve a tie in the Medal fleet with the ranking in the medal race
4.023.039	29-Dec-2009	In Make Schedule more controls are added to specifically steer the assignment to groups.
4.023.038	29-Dec-2009	In Fleet window, class will be preset if only one class exists.
4.023.037	24-Sep-2009	Low point scoring with 1st place .75 scores changed to 1st place .9 scores after saving and reloading the data. Fixed.
4.023.036	10-Jul-2009	In cases with time on distance handicaps, the finish listings display a faulty corrected time. Anyway the ranking of results was correct. The listing is now corrected.
4.023.035	15-Jun-2009	The Dutch no spinnaker compensation of 2.5% for ORC handicaps was not taken into account. Now fixed.
4.023.034	15-Jun-2009	Scoring with dummy handicap TIME (scoring on time, but no handicap calculation) caused an error, problem has been fixed. This did not effect calculations on true handicaps.
4.023.033	10-May-2009	The report Poule Group Schedule has been repaired.
4.023.032	25-Mar-2009	RRS 2009-2012 is now supported (no changes in scoring from RRS 2005-2008)
4.023.031	25-Mar-2009	Option for round-robin with 5 starts and groups has been added
4.023.030	13-Mar-2009	Rare abend in Make Pool Schedule has been fixed.
4.023.029	27-Jan-2009	Since version 4.23.26, the Advanced option to import races from a ZW-file did not function. This is now repaired.
4.023.028	20-Dec-2008	Low point scoring with .9 points for the first place has been added.

Version	Date	Description
4.023.027	20-Dec-2008	Output listings, The sequence of the reports has been changed. Comments with help info have been added.
4.023.026	20-Dec-2008	The race selection in the listing request window is now more flexible
4.023.025	17-Dec-2008	The report Pressfinishlist has been deleted.
4.023.024	05-Dec-2008	The report Day Prizes has been deleted. The report Day Results has been renamed Partial Results. More flexible race selection is planned for the near future.

4.022.058	28-Oct-2006	Minor improvement in Search IMS/ORC handicap data.
4.022.057	21-Oct-2006	Static no of discard has been changed to a definition, where the no of discards is dependen on the no of races sailed.
4.022.056	17-Oct-2006	Sort of Competitorslisting has been changed to a primary sort on numeric Sailnumber
4.022.055	14-Oct-2006	One obscure possibility for loosing results has been eliminated
4.022.054	14-Oct-2006	Choice language is mow stored in the ZW-file
4.022.053	14-Oct-2006	The default finish result, dns,dnc or dnf, is now one of the values tha can be set as a ZW-default in menu Advanced/Use as default.
4.022.052	13-Oct-2006	Error in loading IMS/ORC Triple Numbers on computers with Decimal Comma has been fixed.
4.022.051	12-Oct-2006	Minor ergonomic improvements in window Search IMS/ORC Data
4.022.050	20-Sep-2006	Special races can now be made non discardable. Input through window Fleets.
4.022.049	20-Sep-2006	In window Fleets, setting the proper handicap, sometimes resulted in the wrong handicap. The problem should now be solved.
4.022.048	19-Sep-2006	When exiting from on output window, many users were tricked into closing ZW. This has been corrected.
4.022.047	14-Sep-2006	Automatic initalization of countries and/or classes in new ZW-files, has been discontinued.
4.022.046	14-Sep-2006	ERROR A very specific case of results, caused the program to produce no results, or to terminate with an error. FIXED
4.022.045	14-Sep-2006	ERROR: A reference to a not existing HTML template file, caused an error when HTML output was produced. FIXED
4.022.044	16-May-2006	Finalisation of support of Dutch Licenses and Measurement Certificates
4.022.043	09-May-2006	Corr of error in support of Dutch Licenses and Measurement Certificates
4.022.042	09-Apr-2006	Full ZW-version is now displayed

Version	Date	Description
4.022.041	06-Apr-2006	Internal Error display in Export fixed.
4.022.040	03-Mar-2006	Additional printing improvements
4.022.038	02-Mar-2006	Handling of Printer Selection has been improved
4.022.037	27-Feb-2006	ERROR If no printer is attached, ZW freezes with an error message. FIXED
4.022.036	19-Jan-2006	Pre-release for support of Dutch Licenses and Measurement Certificates
4.022.035	13-Jan-2006	Added a search option to the competitors screen
4.022.034	24-Nov-2005	Forced 3 char output if 100 or more competitors
4.022.033	10-Nov-2005	A not operational default printer caused ZW to crash. Handling of this situation has been improved.
4.022.032	31-Oct-2005	Spanish translation has been updated. Thanks again to Juan Alvaro Paradela Amer.
4.022.031	31-Oct-2005	Database export improved, Export now allows for storing more than one event in a database.
4.022.030	30-Sep-2005	German translation has been updated. Thanks again to Rüdiger Schuchardt.
4.022.029	27-Sep-2005	Minor correction to Finish screen for bfd-input mode.
4.022.028	27-Sep-2005	Build 26 disabled, input of dns, dnf, ocs, etc for handicap classes. Fixed.
4.022.027	21-Sep-2005	Sending a ZW-file thru email may sometimes cause data-corruption in the ZW-file. This is not a ZW error. However a method has been incorporated to circumvent the error.
4.022.026	20-Sep-2005	In handicap classes, using a finish time which is earlier than the starting time, causes a problem. Fixed and warning messages have been added.
4.022.025	17-Sep-2005	Every second Import of data from an XLS spreadsheet, an erroneous error message was generated and the import aborted. FIXED
4.022.024	06-Sep-2005	Vertical lines in HTML output have been removed. Use Stylesheet (ZW.CSS) if you want to reinstate the vertical lines.
4.022.023	01-Sep-2005	Pre-selection established during Search ORC data
4.022.022	01-Sep-2005	Automatic assignment of ORC-fileid during RMS data refresh is now suppressed.
4.022.021	26-Aug-2005	Minor correction in the management of triple number calcs
4.022.020	16-Aug-2005	Minor debugging aid added in ZW-file
4.022.019	15-Aug-2005	Minor in Crew copy to Base corrected, window Competitors-Crew

4.017.008	01-Oct-2002	Long file path's are now supported upto 255 characters.
4.017.007	26-Sep-2002	In Competitor and Finish windows, audible clicks have been eliminated in those cases where the <Enter> key was used.
4.017.006	05-Sep-2002	In some cases discards were not considered. This happened when the number of races was not identical for all fleets. FIXED
4.017.005	05-Sep-2002	In very rare cases, the tie calculation was performed considering races that were excluded from the partial results. (races which were excluded in the Fleets window) FIXED
4.017.004	05-Sep-2002	Number of discards will no be defaulted to zero. (was 1 to conform with ISAF RRS, but 0 will avoid confusion with the users)

Version	Date	Description
4.017.003	05-Sep-2002	A standard printer font will be automatically set when ZW is being used for the first time.
4.017.002	05-Sep-2002	Listing on sailno can now also be requested by fleet
4.017.001	05-Sep-2002	English warning message for duplicate sailno's has been revised to fit window size.
4.017.000	09-Jul-2002	Version 4.017 released.
4.016.001	09-Jul-2002	While using the Make Schedule with "Fixed assignments to starting fleets", the number of sailors for scoring with dnf, dsq, etc was set to an erroneous (too high) value. Error fixed.
4.016.000	01-Jul-2002	Version 4.016 released.
4.015.006	01-Jul-2002	Support has been added for new style of handling discards and tiebreaking in qualifier and finales regattas. This will most probably be a new ISAF ruling.
4.015.005	27-Jun-2002	DateTimeStamps can now be clearly identified as timestamps. On printouts the timestamp will be printed in the footer.
4.015.004	22-Jun-2002	Finishlistings can now be produced with delta times or with formula and factors.
4.015.003	20-Jun-2002	Tables in the MS Word output are now properly formatted.
4.015.002	20-Jun-2002	Including many and lengthy items caused an error. This problem has been fixed.
4.015.001	20-Jun-2002	Finishlistings can now be merged into one listing.
4.015.000	10-Jun-2002	Version 4.015 released.
4.014.001	10-Jun-2002	Tie breaking in version 4.014 contains an error, while applying A8.1. Error fixed.
4.014.000	04-Jun-2002	Version 4.014 released.
4.013.013	04-Jun-2002	ZW has been adapted for the ISAF rule change per 1 Jun 2002. This change effects the tiebreaking.
4.013.012	04-Jun-2002	A warning will be issued if a required courselength was not specified for handicap classes.
4.013.011	01-Jun-2002	For handicap classes a warning is issued if the starttime has not been specified.
4.013.010	01-Jun-2002	Finishlist now displays for handicap classes, the applicable formula and coefficients.
4.013.009	26-May-2002	Stored Fileid will now be reset after initiating a new ZW file.
4.013.008	25-May-2002	An option has been added to exclude rule A8.2
4.013.007	25-May-2002	Tie breaker is now also supporting 2-tier ties.
4.013.006	24-May-2002	Support for pre 2001 Rules has been removed.
4.013.005	14-May-2002	Error during import of handicap races while adjusting for differences in starttime, has been corrected.
4.013.004	14-May-2002	Action check list now sorted on sailno
4.013.003	09-May-2002	An error while importing finishlists with starttime adjustments has been corrected.
4.013.002	02-May-2002	ZW now supports spaces in long filenames
4.013.001	30-Apr-2002	Hang after using button Test in HTML Output Options resolved

Version	Date	Description
4.013.000	28-Apr-2002	Version 4.013 released.
4.012.017	28-Apr-2002	Base course description and base wind loading changed for Single Number
4.012.016	28-Apr-2002	Single Number handicap base changed from 600 to 675
4.012.015	28-Apr-2002	Age allowance correction removed. Note: Age allowance is now standard included in the base RMS data.
4.012.014	26-Apr-2002	Several changes have been made to improve the portability of ZW-files
4.012.013	31-Mar-2002	Handling of duplicate sailno's listing has been improved.
4.012.012	31-Mar-2002	Help has been added for the Birthdate field in the Competitor screen.
4.012.011	31-Mar-2002	Club has been added as one of the output options.
4.012.010	25-Mar-2002	Competitors. An error with Male and Female indication in the English version was fixed.
4.012.009	25-Mar-2002	Save As. A problem, occurring under very specific conditions, was fixed.
4.012.008	25-Mar-2002	Subfleets. If an attribute was used more than once in the selection criteria, only one of these criteria was processed correctly. Fixed.
4.012.007	17-Mar-2002	Control in Competitor window has been improved.
4.012.006	17-Mar-2002	One competitor was not properly handled during Make Schedule In this release. Fixed
4.012.005	17-Mar-2002	ZW could be aborted by pressing key <Esc> while showing a page in output preview on screen. Fixed
4.012.004	17-Mar-2002	Import functions did not function in this release. Fixed
4.012.003	04-Mar-2002	Class names and Country codes could no longer be changed. Fixed.
4.012.002	02-Mar-2002	If handicap ORC-ToT is selected, the actual used handicap might sometimes be in error. Fixed
4.012.001	20-Feb-2002	ActionNext button on Competitors window caused an error when no competitors were available. Fixed.
4.012.000	05-Feb-102	Version 4.012 released.
4.011.015	02-Feb-2002	Settings for Competitor window are now stored in the ZW-files.
4.011.014	02-Feb-2002	Selections can now be made with subfleets.
4.011.013	22-Jan-2002	Files will be associated with ZW. Double clicking on a file will start ZW.
4.011.012	22-Jan-2002	ZW will now remember the used language.
4.011.011	21-Jan-2002	Special results like rdg or scp are longer shown in Italics, but marked wit an * (asterix) as a footnote reference.
4.011.010	13-Jan-2002	Error in program init revisited and hopefully resolved. This caused an abort in windows Classes and Countries
4.011.009	31-Dec-2001	Separate HTML output page did not function. Corrected.
4.011.008	24-Dec-2001	Error in program init resolved. This caused an abort in windows Classes and Countries
4.011.007	15-Dec-2001	Enter Results window, No message was generated in case of an unknown competitor. Corrected.

Version	Date	Description
4.011.006	10-Dec-2001	English version did not start from Splash window. Corrected.
4.011.005	19-Nov-2001	Finish screen now offers an option to immediately show and print calculated results (finishlists)
4.011.004	14-Nov-2001	Finish window will no longer open spontaneously.
4.011.003	12-Nov-2001	Open check list items can now be searched on the Competitors window.
4.011.002	11-Nov-2001	Delete, rename, copy and move file options have been removed from the file menu
4.011.001	10-Nov-2001	32 bit version established. No functional changes. Filenames can now be longer than 8 characters.
4.010.014	05-Nov-2001	Bug with new fleets in window Fleets has been corrected.
4.010.013	31-Oct-2001	Printing sometimes occurred at random while previewing output. Fixed.
4.010.012	27-Oct-2001	Minor bugs removed from Action Checklist
4.010.011	23-Oct-2001	Layout correction to special reports for Single Number Calculations, Make Schedule and Split for Finals.
4.010.010	20-Oct-2001	IMS/ORC data can now also be searched by boatname.
4.010.009	20-Oct-2001	Action checklist often showed only a blank screen. Fixed.
4.010.008	20-Oct-2001	Requesting multiple Finishlists resulted in only one shown on screen. Fixed.
4.010.007	18-Oct-2001	Corrections have been made in the RMS import for IMS/ORC data. Some data was not imported due to incorrect interpretation of the timestamp.
4.010.006	18-Oct-2001	Screen for Fleet input has been improved to avoid unsolicited changes in fleet names.
4.010.005	18-Oct-2001	Results can now be printed with only the Boatname.
4.010.004	13-Oct-2001	Single Number Handicaps are now printed with and without Age Allowance.
4.010.003	13-Oct-2001	Single Number Handicap calculations caused an abort under certain conditions. Fixed
4.010.002	03-Oct-2001	In 4,010 new competitors could not be added. Fixed
4.010.001	01-Oct-2001	Init error for new users repaired.
4.010.000	27-Sep-2001	Version 4.010 released. This is the last version with support for Windows 3.1 and 3.11.
4.009.006	26-Sep-2001	Default filetype for imports now set for both ZW and TXT import files.
4.009.005	24-Sep-2001	Gender (Male/Female) can now be printed on results.
4.009.004	23-Sep-2001	Exports now contains the points per race and a dummy record for proper column datatypes.
4.009.003	21-Sep-2001	Width of Sailno has been increased on the Enter Results form.
4.009.002	21-Sep-2001	Listings. Print button now locked after starting a printout. This will avoid clashes during output preparation.
4.009.001	20-Sep-2001	Naming of HTML output files corrected. No functional changes.
4.009.000	18-Sep-2001	Version 4.009 released.

Version	Date	Description
4.008.011	12-Sep-2001	I.s.o sailno you may now also use Helmsman name, Boatname, boattype or parts thereof, to find a specific boat in the windows: Competitors, Enter results and Poule Schedule.
4.008.010	11-Sep-2001	5 most recent ZW files are now available under menu option File
4.008.009	10-Sep-2001	In special cases you can now refer to sailno by using the last 3 or 4 digits. This is specifically useful for causes with long sailno's, such as Lasers, where often the last 3 or 4 digits form a unique number.
4.008.008	09-Sep-2001	In 4.006.006, the option in window "Split for finales", to include or to exclude the selection or round-robin results in the final results, was introduced. The option did not work and has now been fixed.
4.008.007	09-Sep-2001	Duplicate Sailno's now also includes listings for Duplicates in last 3 and 4 digits of Sailno.
4.008.006	05-Sep-2001	Suppress generation of redundant Double Quotation Marks in HTML output.
4.008.005	03-Sep-1991	Action checklist for open issues created
4.008.004	02-Sep-2001	Click on Enter Results (Finish) causes program to loop. Fixed
4.008.003	02-Sep-2001	Help topic for Team races has been added
4.008.002	01-Sep-2001	Cosmetic changes in Listings while requesting a Competitorslisting.
4.008.001	31-Aug-2001	Fixing a sporadic file save error.
4.008.000	30-Aug-2001	Version 4.008 released.
4.007.009	30-Aug-2001	English Help file has been included
4.007.008	16-Aug-2001	HTML output for team races improved.
4.007.007	16-Aug-2001	Impact of scoring penalties is more clearly shown on results
4.007.006	16-Aug-2001	HTML output corrected. On some browser HTML output could not be shown since 4.007.000
4.007.005	16-Aug-2001	DSQ penalty scores can now exceed the maximum score based on the number of competitors plus one. To use this click OTH on the finish window and use code DSQ.
4.007.004	07-Aug-2001	Handicap did not always display results correctly, if a Finish window was used without making changes, Corrected.
4.007.003	05-Aug-2001	Superfluous instances at taskbar eliminated.
4.007.002	05-Aug-2001	Language question will no longer be repeated.
4.007.001	05-Aug-2001	Help files further enhanced to be context sensitive. Sorry no English yet.
4.007.000	28-Jul-2001	Version 4.007 released.
4.006.006	28-Jul-2001	Window "Split for finales" now has the option to include or to exclude the selection or round-robin results in the finale results.
4.006.005	27-Jul-2001	In window "Output Type and Name", filename and location could not be selected, if Word or HTML output was selected. Fixed.
4.006.004	25-Jul-2001	Minor change on HTML output for long series. Cosmetic.
4.006.003	20-Jul-2001	Minor changes on General window. No functional changes
4.006.002	20-Jul-2001	Changed OK buttons to EXIT buttons on many windows

Version	Date	Description
4.006.001	13-Jul-2001	HTML output. Internal formatting of HTML output has changed. Fontsizes have been decreased to suit limited output display sizes. The HTML file now uses styles and classes for easy adaptation to site styles.
4.006.000	12-Jul-2001	Version 4.006 released.
4.005.006	12-Jul-2001	Help files have been updated. Sorry no English yet. Sorry not all subjects covered.
4.005.005	08-Jul-2001	In recent versions it was not possible to insert a finishing boat between two other boats. Handling decimal points (and/or comma's) has been improved.
4.005.004	05-Jul-2001	Sometimes the export only exported data from only one fleet. Corrected.
4.005.003	04-Jul-2001	Minor error in Word output corrected.
4.005.002	04-Jul-2001	In some cases the Sailno combobox on the Finish window remains open. Fixed
4.005.001	04-Jul-2001	English text in Make Start Schedule corrected.
4.005.000	02-Jul-2001	Version 4.005 released.
4.004.002	02-Jul-2001	Tiebreaker will not work correctly in all cases due to calculation inaccuracies. Total scores are rounded to the nearest 0.001. This solves the problem.
4.004.001	28-Jun-2001	Corrections made on Poule schedule for 4 starts on 2 courses
4.004.000	25-Jun-2001	Version 4.004 released.
4.003.007	25-Jun-2001	IMS/ORC. A modified course description and modified wind profiles will now be preserved in the ZW data file.
4.003.006	17-Jun-2001	ZW suggest a finish time for One-Design classes when a result for a One-Design is entered on a active Handicap class finish window. Corrected.
4.003.005	23-Jun-2001	Files in the ZW Work directory will no longer be deleted, when ZW is closed. However all old work files will be cleared at the start of a new SW session.
4.003.004	22-Jun-2001	Poule schedule for 4 starts on 2 courses added.
4.003.003	22-Jun-2001	Poule Schedule. Notepad, Word and HTML output option in Make Schedule and Split for Finales do not work. Revised.
4.003.002	18-Jun-2001	Finish. Handicap classes, dd in formats ddhmm.ss and ddhmmss did not work. Corrected.
4.003.001	16-Jun-2001	Version history created in Menubar Help
4.003.000	12-Jun-2001	Version 4.003 released.
4.002.011	12-Jun-2001	Display more info when duplicate numbers exist in import
4.002.010	11-Jun-2001	Version 4.002.000 introduced an error while printing numbers with a decimal comma. Error now corrected.
4.002.009	10-Jun-2001	Import of finish list added.
4.002.008	10-Jun-2001	Fleet not imported during Import Competitors. Corrected.
4.002.007	10-Jun-2001	Boattype not imported during Import Competitors. Added
4.002.006	10-Jun-2001	Quotes in as leading char in names cause problems during imports. Corrected
4.002.005	10-Jun-2001	Default scoring system is now Low Point System
4.002.004	10-Jun-2001	Fleets window. Fleets can now be scrolled by using PageUp and PageDn

# ZW version log

Version	Date	Description
4.002.003	10-Jun-2001	Imports will now initialize all options for newly created fleets
